DEPT MR 82171
411A Highland Ave
Somerville MA 02144-2516

Dear Mr. Peterson:

This letter will acknowledge receipt of your Right to Know request for emails and email attachments from March 1, 2019 to present ending in @adl.org sent to/from Portsmouth Police Department employees and containing multiple search terms in the subject line.

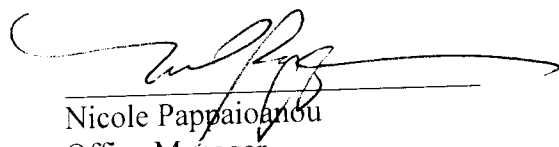

Your request will be researched and if these items are available, a copy of the requested document(s) will be prepared for release to you. This may take at least thirty (30) days to prepare. There will be a cost associated with production of the requested document(s). You will receive notification by USPS mail when preparation is complete, and for the cost.

With regard to the actual production of documents, please be advised the Portsmouth Police Department will not respond to a Right to Know requests by email. Our reasons for this policy are that emails introduce unreliability into the process for a number of reasons, including the fact that emails might be too large to be received and there is no way for the Portsmouth Police Department to confirm the receipt of the entirety of emails which it might send. Additionally, email communications may pose a cyber security risk, however large or small, especially when there are repeated email exchanges with multiple parties making Right to Know law requests.

Sammy Peterson
